

LabX Tech Dry Bath Multi-Well Dry Heating Block

15 Wells (13 mm) + 12 Wells (11 mm)

OVERVIEW

The Dry Bath from LabX Tech is a high-performance laboratory heating unit designed to provide uniform and precise temperature control for test tubes without using water or liquid baths. Ideal for molecular biology, chemistry, pharmaceuticals, and clinical labs.

INCLUDED FEATURES:

- 1 Dual-size block to accommodate various tube diameters
- 2 Fast, uniform heating without water or fluid
- 3 Simple digital operation with clear temperature display
- 4 Built-in overheating protection for safety
- 5 Compact, low-maintenance design
- 6 Locally manufactured with high standards and after-sales support
